

We Already Have Health Care

WASHINGTON, Sept. 29 /Christian Newswire/ -- "We already have health care in America so why should we pay our government to provide it? Why we should pay our government to provide something which we already have? Besides, the health care we have is cheaper than it would be adding on all of those extra taxes," said Don Swarthout, President of Christians Reviving America's Values.

Some of the republican or conservative, pundits are saying some rather stupid things about health care. Some of them are actually saying, "Oh, we favor a bill providing health care to Americans, it is just that we don't agree with the current bill." What? Are the so- called conservatives for health care in America?

The answer is YES! Our government is no longer concerned about the rights of the people as guaranteed by the Constitution. They are only concerned about getting more name recognition and in getting re-elected. Our elected officials ALL act like a bunch of wolves who feed upon the American Tax Payer.

Perhaps they should all be voted out of office and replaced with average people who still understand the Constitution of the United States of America and how to balance our budget. Our elected officials don't seem to realize that without us sending them our taxes, they have no money.

Don Swarthout said, "I would like to see health care in America too, but we simply cannot afford it. Besides all of the people who don't have health care, really do have health care. They can go to the emergency room and be treated according to our laws and according to the Hippocratic Oath taken by doctors in America."

This includes everyone. All of the illegal aliens, uninsured and everyone else who lives in the United States of America already has health care which is being paid for by the rest of us.

With that in mind, why do we need a health care bill in America? Why don't we stop looking for phony ways to pay for health care and move on to more important things like truly balancing the budget? We must demand that our elected officials in Washington DC tell us the total truth.

Don Swarthout concluded, "Perhaps we should tell our elected officials, who just cannot tell us the total truth; we are through accepting your lies. We are going to vote you and everyone else who regularly lies to us out of office."
