

Newly Launched Homeschool Legal Advantage is Experiencing Rapid Growth from Homeschooling Families throughout the United States

Christian Newswire -- Homeschool Legal Advantage (HLA) is a ministry of legal helps to homeschoolers throughout the United States, and is experiencing rapid growth. HLA is an outreach of the Christian Law Association (CLA). The CLA has faithfully served churches and families since 1969, and has successfully defended over 8,000 educational freedom related cases.

In recent years, the Christian Law Association has actively assisted an ever increasing number of homeschooling families. In response to this growing need, earlier this year, the Christian Law Association created Homeschool Legal Advantage (www.HomeschoolLegalAdvantage.com).

"Since we launched Homeschool Legal Advantage, we've been embraced with a real outpouring of enthusiastic support from homeschooling families throughout the United States," said attorney David Gibbs III. "We believed there was a need to serve homeschoolers in this area, and the fact that we're on track to have over 10,000 member families by the Spring of 2010 has emphatically reinforced that. We see HLA as an important area of outreach that is consistent with the 40+ year ministry of the Christian Law Association."

Today, the HLA team includes a large group of full- time attorneys and an additional 200+ affiliated attorneys throughout the United States. HLA stands ready to educate and empower Homeschoolers so that they can respond kindly and confidently to local officials when homeschooling questions arise. And, when direct attorney involvement or even official legal representation is required to defend the right to homeschool, members of Homeschool Legal Advantage can rest assured that assistance from one of our experienced attorneys is only a phone call away!

The HLA website provides Online Registration, an overview of Membership Benefits and answers to many Frequently Asked Questions (<http://homeschoollegaladvantage.com/frequently-asked-questions/>) which clearly articulate the unique philosophy and value that constitute the Homeschool Legal Advantage.
