

A Bill No Senator Can Be Proud Of

Senate passes health care bill that funds abortions, rations care, and burdens taxpayers with paying off bribes

WASHINGTON, Dec. 24 /Christian Newswire/ -- Today the U.S. Senate passed Sen. Harry Reid's health care bill.

Wendy Wright, President of Concerned Women for America, stated, "No senator with an ounce of integrity can be proud of this bill or how it was passed. It marks among the lowest points in the U.S. Senate's history.

"Americans overwhelmingly disapprove of the Democrats' health care bill and distrust how the Democrats passed it. The bill will fund abortions, deny care for patients, increase premiums, create more bloated and unnecessary government agencies and burden taxpayers with paying off bribes to senators.

"As if to emphasize their arrogance, Democrat senators passed this monument to their greed for power on Christmas Eve. This gift to themselves at Americans' expense stands in stark contrast to Jesus relinquishing His divine privileges to serve and give to others.

"During this holy season commemorating the humility and love of God Who came to earth as a baby, these senators voted to fund abortion. Jesus healed the sick; this bill will force health providers to deny care to patients. Jesus taught people to be good stewards; this bill will penalize people who have insurance but the government doesn't approve. Jesus treated people of all classes equally; this bill benefits those well-connected to conniving politicians.

"The House must now deal with this monstrosity of a bill. Concerned Women for America will work to convince House members to kill this bill."

Concerned Women for America is the nation's largest public policy women's organization.
